The forms and instructions for filing a grievance are available from U.S. Figure Skating headquarters upon request of a member or member club.

A. *Grievance Proceedings* (Except for matters subject to the jurisdiction of the U.S. Center for SafeSport under Section 2 of this article):

(i) *Scope:*

- (b) The member or member club must be a member in good standing both at the time the grievance is filed and at the time of the alleged violation of the U.S. Figure Skating bylaw or rule.
- (c) Such grievance must include the allegation that violation of a specific U.S. Figure Skating bylaw or rule caused harm to the Grievant.

*The balance of Section 1 and all of Section 2 remain unchanged.*

**Grievance**

**GCR 2.02** The Grievance Committee has jurisdiction over:

- A. ~~All all grievances and disciplinary proceedings filed under Article XXV of the U.S. Figure Skating bylaws except for matters subject to the jurisdiction of the U.S. Center for SafeSport under Article XXV, Section 2, of the U.S. Figure Skating bylaws.~~
- B. ~~All disciplinary proceedings brought under Article XXV of the U.S. Figure Skating bylaws.~~

**GCR 3.00 Initiating Grievance Proceedings**

**GCR 3.01** The grievance process is started by filing a grievance statement with the Grievance Committee chair. A grievance statement may be filed by either a member or a member club. The grievance statement must be written, signed under oath, notarized, and include:

- J. The Grievant may attach supporting documentation and evidence, including a description of anticipated testimonial evidence, to the Grievance Statement.
- K. The Grievant must pay a \$225 filing fee to U.S. Figure Skating when the Grievance is filed. If the Grievance is not accepted, the filing fee will be refunded. There is no fee for filing a SafeSport Complaint (see rule section ECR 4.00).

**GCR 3.02 Receipt of Grievance Statement by Grievance Committee chair:**

- C. If the Grievance Committee chair determines that the Grievance Statement complies with all applicable requirements, the Grievance Committee chair shall, within two weeks of receipt of the Grievance Statement:

  2. The person responsible for sending the documents to the Respondent must use any expeditious delivery system that provides reasonable evidence of delivery to the addressee, which will constitute proof that notice of the Grievance was given to the Respondent; and
  3. Name a Hearing Panel and forward the Grievance Statement to each panel member.

**GCR 3.03 Respondent's Reply to Grievance Statement:**

- A. The Respondent may file a response to the Grievance Statement with the Grievant and the Grievance Committee chair. If filed, the response must be in writing, signed under oath and notarized. The response must be filed within 30 days after delivery of the Grievance Statement to the address of the Respondent on file at U.S. Figure Skating headquarters by any expeditious delivery system that provides reasonable evidence of delivery.
- B. Failure to file a Response constitutes an admission of the allegations made by the Grievant and waives the Respondent's right to a hearing or appeal. After such an admission, the Grievance Committee chair will recommend appropriate relief to the Board of Directors and seek their agreement. If the board concurs, the Grievance Committee chair's decision is final, binding and may not be appealed under the bylaws and rules of U.S. Figure Skating.

### **GCR 3.05 Hearing Guidelines:**

- A. The Grievance Committee chair, after consultation with the parties, shall determine if the hearing will be conducted by writing, telephone conference, hearing or any combination thereof, and provide written notification of such decision to the parties. The hearing or completion of the investigation must occur within 90 days of the appointment of a Hearing Panel unless the Hearing Panel chair and the Grievance Committee chair concurrently decide that there are reasonable grounds for a delay, grant a reasonable delay, and notify the parties of the delay, and the reasons for it in writing.
- B. The Grievant and Respondent may represent themselves throughout the grievance process, or may be represented by a person of their choice.
- C. The Hearing Panel chair will provide the Grievant, the Respondent and the panel members with written procedures and guidelines to be followed.
- D. All communications with the Hearing Panel must be in writing and directed to the chair of the Hearing Panel.
- E. The Hearing Panel chair must ensure that a record of the hearing is made.
- F. All parties must be given a reasonable opportunity to present oral or written evidence, to cross-examine witnesses, and to present such factual or legal claims as desired. The rules of evidence will not be strictly enforced; instead, rules of evidence generally accepted in administrative proceedings will be applicable. The Hearing Panel will determine admissibility, relevance and materiality of the evidence offered and may exclude evidence deemed by the Hearing Panel to be cumulative or irrelevant. The Hearing Panel has the right to question witnesses or parties to the proceeding at any time.
- FG. The Grievant has the burden of supporting the Grievance by a preponderance of the evidence.
- GH. Within 20 days of the conclusion of a hearing, the Hearing Panel must issue a written decision including findings of fact, the bylaws or rules upon which the decision is based and the reasoning behind the decision. The decision must be sent to the Grievance Committee chair, Grievant, Respondent and the U.S. Figure Skating president, secretary and Administrative/Legal Group coordinator by any expeditious delivery system that provides reasonable evidence of delivery.
- HI. The jurisdiction of the Hearing Panel ceases, and Hearing Panel members ~~shall~~ will be discharged when the written decision is issued.

### **GCR 5.04 Expedited Hearing Procedures:**

- A. Filing a request for an Expedited Hearing for qualifying competitions and competitions protected under the USOC Bylaws or the Ted Stevens Olympic and Amateur Sports Act:

Clarify, amend and add to **solo free dance definitions (rules 8372 and 8373, page 266 Rulebook)** as follows:

**8372** Jumps of more than one-half revolution, two or more consecutive ½ revolution jumps, or split jumps where the legs are spread more than 45 degrees are not permitted.

**8373 Definitions and Descriptions**

A. Description of Edge Elements:

1. Short Edge Elements: A short edge element is a movement where the skater must hold a continuous sustained edge (one lobe) in any selected position. A short edge element must be held for at least three seconds but not more than ~~six~~ seven seconds. Turns are not permitted except on the entry or exit of the element. The primary focus is on the quality of edge, and the secondary focus is on the position attained. Some examples include but are not limited to:
  - a. One foot glide in attitude position
  - b. Shoot the duck
  - c. Spirals in varied positions
  - d. Crouch with one leg extended
  - e. Spread eagle
  - f. Ina Bauer
  - g. Hydroblade movements
  - h. Pivot
  - i. Lunge
2. Combination Edge Elements: A combination edge element consists of two short edge elements performed consecutively that progress on two separate curves to form a serpentine-like (S-shaped) pattern. The short edge on each lobe must be held in position for at least three seconds, but a long edge element may not exceed 12 seconds. A change of position is not required for each portion of the long edge element. A turn of no more than one-half revolution is allowed between each short edge element. A change of foot is permitted between each short edge element. A turn on the entry or exit is permitted. The primary focus is on the quality of edge for each part, and the secondary focus is on the positions attained.

B. Definition of Twizzle Series: At least two twizzles executed in succession with up to three steps between twizzles.

C. Definition of Choreographic Solo Dance Spins: A choreographic solo dance spin is on one foot only. It must have a minimum of three revolutions and may include any number of changes of position. A combination spin must have a change of foot with a minimum of three revolutions on each foot, and may contain any number of positions on either foot. This element should relate to the music and enhance the overall program. No flying entries are permitted on any dance spin.

D. Choreographic Character Step Sequence: Performed anywhere in the program, a step sequence that must be placed around the Short Axis and proceed from barrier to barrier. The Choreographic Step Sequence must begin with the skater coming to a full stop near the barrier on either side of the rink near the red line. A stop is not required to show the ending of the element. The pattern of the Choreographic Character Step Sequence may vary from the Short Axis up to 10 meters on either side of the Short Axis. Definition of Choreographic Stop: A choreographic dance stop is performed to express the character of the music through movements or dancing in place. The stop should be for a minimum of three seconds but not to exceed five seconds.

### 345.APPROVED – Synchronized Skating Committee

Amend rule 9411 (page 301, Rulebook) to remove redundant information from the “STANDARDS” section and refer to the source information.

#### 9411 Elements for Senior Synchronized Short Program

##### STANDARDS

- All elements must meet general criteria and basic requirements in order to be counted (see rule 9150). Levels of difficulty, calling specifications, scale of values and judging criteria can be found at [usfigureskating.org](http://usfigureskating.org). Furthermore, elements will not be considered as attempted unless the element meets the minimum requirements for Level Base.
- Creative innovations and variations are not features and are permitted in the transitions and required elements.
- Creative innovations will be reflected in the program components.
- The team must predominantly act as one unit. Division of the team into several units is allowed during the creative element and transitions. Additionally several units can be used as short transitions if the element following the transition so requires (i.e. preparation for an intersection or beginning of a creative element).
- For creativity in linear elements (block and line) and in rotating elements (circle and wheel), skaters (a maximum of half the team) may leave and rejoin an element as long as the minimum number of required skaters in the element is maintained.
- Features and additional features will be counted only once per element.
- All skaters must be joined/aligned to a spoke, line, circle, etc., during features for these to be counted.
- Some features may be executed at the same time as other features. Please see each element (rule 9150) for the cases where this is not permitted.
- Mirror image pattern is permitted in elements and transitions.
- Step sequences of a complex variety may be used both in the elements and during transitions.
- Turns and linking steps may be used during elements.
- Syncopated choreography may be used (other than in the step sequence additional feature or features where correctly executed turns/edges are required to determine the level of difficulty).
- The choreography and elements should be executed facing toward all sides of the rink.
- Programs not fulfilling the requirements above will be penalized.
- Un-prescribed or additional elements or repetitions of elements that have failed are not allowed and will not be marked. A deduction must be made if any such elements are included. Basic element shapes (Level Base) will not be considered as an un-prescribed or additional element(s).
- Transitions necessary to link the required elements are permitted.
- Some features and additional features will be prescribed for each element. Features and additional features other than those required for each element may not be taken into consideration when determining the level of an element. Features and/or additional features that are not permitted will receive a deduction of not according to requirements if included. This deduction will be taken from the element score.
- Features or additional features will be considered as omitted if not attempted.
- Elements executed using the wrong shape will receive a penalty (see rule 9923). A wrong shape would include examples such as a team executing a four-spoke instead of a required three-spoke, or an angled intersection instead of a box intersection.
- For illegal and non-permitted elements, see rules 9160 and 9170.
- For deductions and reductions, see rule 9923.
- Definitions of general terms, steps and turns, features and requirements and additional features/extra features can be found in rules 9110-9140.

**Implementation date:** July 1, 2019
